

Who are we?

By means of introduction, we are Dr. Hans-Jörg Otto and Lukas Brunbauer from ITS (Austria) responsible for the coordination of Work Package 5 (WP5) as well as Zygimantas Kidikas from Biovala (Lithuania) in charge of elaborating a market study for the Horizon 2020 RIA Project [Phy2Climate](#). The overall project is coordinated by Dr. Markus Ortner (ITS).

What?

In a nutshell, Phy2Climate WP5 aims at exploring **potential business models** for a process that combines the **production of biofuels** (liquid, gaseous and solid) **with the remediation of contaminated soil** through phytoremediation.

Why do we need your input/feedback?

In order to reach a sound understanding of needs, motives and lived practice of all parties involved in the process.

Who are we addressing?

The survey will be addressed to stakeholders of the Phy2Climate process (see image below)

- landowners
- farmers
- governmental bodies (and associated)
- biomass pre-treatment
- biofuel producers
- refineries
- landfills
- (potential) consumers and traders

How much time does it take?

The questionnaire should take approx. 15 minutes

What kind of questions?

- **Common section:** understanding your activity profile (5 questions)
- **Experience with soil contamination and remediation** (10 questions)
- **Stakeholder specific questions:** depending on your stakeholder profile you will receive (11 to max. 19 questions)
- **Closing:** general comments and contact details if you want to receive updates (3 questions)

Where can I find the survey?
